

Maclay Street Bridge Replacement

Section 106/4(f) Resources

Maclay Street Bridge Replacement

Section 106 Flowchart (Historic Resource Impacts)

The project will have an Adverse Effect on the historic railroad corridor due to the removal of the Maclay Street Bridge

We Are Here

Maclay Street Bridge Replacement

Mitigation for impacts to historic resources will be coordinated with the Section 106 Consulting Parties and will include the following:

- Development of an interpretive display highlighting the historic connection between the PA Railroad and the PA State Farm Show to be installed on the PA Farm Show Property
- Context sensitive bridge design to include:
 - symbols, drawings, or bas-relief images incorporated into the interior surfaces of the parapets to reflect both the PA Farm Show and PA Railroad
 - replacement street lighting
