

Project Description

The project includes rehabilitation of the superstructure of the T-963 (Lausch Road) bridge over Route 222 in East Cocalico Township, Lancaster County. The purpose of this project is to provide a continued safe and efficient crossing on T-963 (Lausch Road) over Route 222.

The project includes rehabilitation of the existing superstructure. Superstructure repairs include painting of the existing steel superstructure and fabricated structural steel repairs of the existing beams. The horizontal and vertical geometries will remain unchanged.

Environmental

The project is located in a rural area. Bicycle and pedestrian facilities are not within the project limits. Other environmental efforts for the project include investigating historical, archeological, and aquatic resources as well as threatened and endangered species.

Utilities

There are no anticipated utilities impacts within the project limits. No utilities are anticipated to be relocated prior to construction.

Right-of-way

Permanent and temporary right-of-way acquisitions are not anticipated for this project.

Maintenance and Protection of Traffic

Staged temporary traffic control will be implemented for the duration of construction for both T-963 (Lausch Road) and Route 222.

Schedule and Cost

Overall construction is anticipated to last approximately 4 months during the Fall of 2026 or Spring of 2027 at an estimated cost of \$430,000.
