**Route 222 over Route 1040 (Colonel Howard Boulevard)**

Project Information

The Route 222 bridge maintenance project is located over Route 1040 (Colonel Howard Boulevard) in East Cocalico Township, Lancaster County, PA.

The purpose of the project is to perform bridge maintenance activities to extend the service life of the structure and continue to provide a safe crossing for the traveling public.

The project maintenance activities include, but are not limited to: concrete repairs and patching, bridge expansion joint replacements, bridge railing repairs, steel girder repairs, abutment slope wall repairs, and full bridge painting.

Environmental

The project is located approximately 0.5 miles southwest of the PA Turnpike (I-76) in a rural setting with the adjacent land use predominantly agricultural. One wetland was identified adjacent to the existing bridge location. Coordination for the Indiana bat will be included as part of the project. No identified historic resources, public parks, state forests, or state gamelands are located in the vicinity. There is no documented hazardous, residual, or municipal waste near the immediate project area.

Utilities

No utilities are present in the immediate bridge area. No utilities are present that would affect any of the bridge maintenance activities.

Right-of-Way

All maintenance activities will be completed within existing right-of-way.

Maintenance and Protection of Traffic

To successfully perform the maintenance activities, short-term lane closures and restrictions can be expected on both Route 222 and 1040 during active construction periods.

Schedule and Cost

Construction is anticipated to be during the 2027 construction season at an estimated cost of \$1.5 Million.

Contact

If there are any questions or concerns related to the project, please contact Brandy Rotz, Project Manager at 717-775-3277.
