

# FLASHING BEACON PROJECT

DISTRICT 12-0

# PROJECT INTRODUCTION

- The purpose of this presentation:
  - Introduce the project
  - Gather feedback
- The project purpose and need:
  - This project is meant to improve safety at two intersections within the District:
    - Lewis Avenue and Pennsylvania Boulevard/Park Street in the City of Jeannette, Westmoreland County
    - Bebout Road and Bower Hill Road/Froebe Road in Peters Township, Washington County.
  - This will be accomplished by installing a flashing beacon at each intersection. The flashing beacon will alert motorists of an all-way stop ahead. This will decrease the chance of a crash.
- Project location maps can be found on the project website
- Work will be completed using single-lane closures with flaggers
- No detours are anticipated for this project

# PROJECT IMPROVEMENTS

Install flashing beacon

Perform minor tree trimming

# PROJECT SCHEDULE

- Final Design: Spring 2025
- Construction: Spring 2026-Fall 2026
