INFORMATION

Multi-Purpose Passenger Vehicle: A motor vehicle with motive power, except a low-speed vehicle or trailer, designed to carry 10 persons or less which is constructed either on a truck chassis or with special features for occasional off-road operation.

School Bus: A motor vehicle which is designed to carry 11 passengers or more, including the driver; and is used for the transportation of preprimary, primary or secondary school students to or from public, private or parochial schools or events related to such schools or school-related activities. This term does not include a motor vehicle used to transport preprimary, primary or secondary school students to or from public, private or parochial schools or events related to such schools or school-related activities, which is designed to carry 11 to 15 passengers, including the driver, and which is registered in this commonwealth as a bus prior to March 1, 1993, or a motor vehicle which is designed to carry 11 to 15 passengers, including the driver, which was titled to any public, private or parochial school on or before March 1, 1993, and which is registered to that public, private or parochial school in this commonwealth as a bus prior to September 15, 1993.

School Vehicle: A motor vehicle, except a motorcycle, designed for carrying no more than ten passengers, including the driver, and used for the transportation of preprimary, primary or secondary school students while registered by or under contract to a school district or private or parochial school. The term includes vehicles having chartered, group and party rights under the Pennsylvania Public Utility Commission and used exclusively for the transportation of school children.

NOTE: The National Highway Traffic Safety Administration (NHTSA), the federal agency charged with enforcing school bus safety laws, has issued numerous warnings against the use of 11-15 passenger vans. NHTSA has reported at least 71 non-collision van rollovers causing approximately 126 fatalities. Those accidents included passenger and cargo vans.

Federal regulations do not prohibit the use of vans by schools, but require any van (originally designed to seat more than 10 passengers) sold or leased for use as a school bus to meet the safety standards applicable to school buses. A dealer selling a new 11-15 passenger van to be used for school transportation must ensure that the van is certified as meeting all Federal Motor Vehicle Safety Standards for school buses.
