

## Certificate of Compliance

Please follow the link below to initiate a new material certification form.

CS-4171:

[CS-4171 - Certificate of Compliance Link](#)

The form works in a similar fashion to the previous versions without the need to maintain a separate digital signature. To start the process, you will have to add your name as the sender and choose a recipient to complete the form. Once complete, you will be prompted to add a signature at the end of the form, and it will be embedded in the form. The completed form will be emailed to the recipient so it can be uploaded to ECMS.

An Excel file is available that can serve as a template for the CS-4171. It is available [here](#).

If you have any questions or comments, please call the PennDOT IT Service Desk at 855-783-8330 and reference "ECMS eSignature". You can also email us at [RA-PDECONSTRUCT@pa.gov](mailto:RA-PDECONSTRUCT@pa.gov).
