An Official Pennsylvania Government Website

PA-SHARE is owned by the Commonwealth of Pennsylvania and managed by the PA SHPO, a Bureau of PHMC.

## PA-SHARE

Pennsylvania's Historic & Archaeological Resource Exchange

Welcome to PA-SHARE, Pennsylvania's GIS and online project management system for documenting and working with Pennsylvania's older and historic places.

PA-SHARE is a web application that replaces the former Cultural Resources GIS (CRGIS) system and the PA SHPO's existing paper-based systems.

PA-SHARE users can search for and locate historic properties and archaeological sites using GIS technology, retrieve and download information about these places, submit and track submissions, and manage project communications related to PA SHPO's programs electronically from the convenience of their home or office.

Welcome to PA-SHARE

Home

**PA-SHARE Bulletin Board:**  
May is Historic Preservation Month! Celebrate by sending in a Preservation Success Story using the PA-SHARE Success Story wizard on the Submit home page. We'll be choosing three entries for a FREE 3-month Pro subscription. All entries are automatically entered to win a 2021 PA SHPO Community Initiative Award. To learn more, visit Make This Month a Preservation Success by Sharing Your Story.

**Search the PA-SHARE database for:**

- A historic resource
- An archaeological site (approved registered users only)
- A historic resource or archaeological site survey report (registered subscription users only)

**Submit to the PA SHPO:**

- A project or application
- A historic resource or archaeological site
- A Preservation Success Story

**Connect with the PA SHPO too:**

- Get help with PA-SHARE.
- Request information about PA SHPO's programs.
- Learn more about preservation in Pennsylvania.

**Subscribe to PA-SHARE**

- Different types of accounts for different types of users
- Full data and functionality with Pro and Business accounts

**Access your "My Projects" dashboard:**

- Subscribers only
- Manage Projects and Submissions
- SHPO requests and correspondence

**Access your organization's dashboard:**

- Subscribers only
- Project management
- User management

**Learn more about PA-SHARE:**

- PA-SHARE FAQs
- Tutorials
- User's Guide

## FREQUENTLY ASKED QUESTIONS

### **Do I have to pay to use PA-SHARE?**

Guest and Basic accounts in PA-SHARE are free. Only Pro and Business accounts require a paid subscription. For more information about different types of user access, visit the [PA-SHARE Options & Subscriptions](#) page.

### **Do I have to pay to submit information to PA SHPO through PA-SHARE?**

No. Users do not have to pay to submit information to PA SHPO using PA-SHARE. Users are required to have at least a Basic account. Users accessing PA-SHARE through the anonymous Guest access can only submit Success Stories.

### **Are Key numbers used in PA-SHARE? How is data identified?**

Identification of projects, resources, and surveys will have a new number sequence. Key numbers and Environmental Review numbers will not continue, but legacy numbers (the name assigned to all of the former PA SHPO numbering systems) will be searchable in PA-SHARE. PASS numbers (Smithsonian Trinomials) will continue to be issued for archaeological sites.

PA-SHARE numbering starts with the four-digit year of when the project started, or when the resource was recorded. A two-letter sequence will follow indicating if it represents a Project (PR), Resource (RE), Survey (SR), Report (RP) or Historical Marker (HM). The alphanumeric sequence will end with five-digit. For example, a PA-SHARE Project number will look like this: 2021PR12345. "PR" indicates a Project, "2021" is the year the project started, and "12345" means that it is the 12,345th project in 2021.

### **I had Planner access in CRGIS so that I could see the probability model. I'm not an archaeologist but my job requires me to submit projects to SHPO for Section 106. Is there an equivalent planner access in PA-SHARE?**

No. An equivalent to Planner access is not currently available in PA-SHARE. It is a level of access we anticipate building in the next upgrade.

### **Do I still need to submit a Historic Resource Survey Form (HRSF) to have my property evaluated for its National Register eligibility?**

The PA-SHARE DOE Request Wizard will guide you through the process of submitting information required for a determination of eligibility. The information that was formerly captured in the HRSF form is now a series of data entry fields. You will need to upload a PDF of your descriptive narrative and statement of significance to the system. You may upload PDFs of the images as well, but one photo must be attached to the submission.

### **Is a Project Review Form still required and should it be included as an attachment for the project?**

No. The PA-SHARE Environmental Review data entry screen replicates and replaces the Project Review Form by gathering similar information.
