January 15, 1997

UNIFORM SYSTEM FOR ESTABLISHING PRICES  
FOR CONTAINER SIZES NOT LISTED ON THE  
AREA PRICE SCHEDULES

At its meeting on November 6, 1996, the Board adopted the following system for establishing prices for container sizes not listed on the area price schedules:

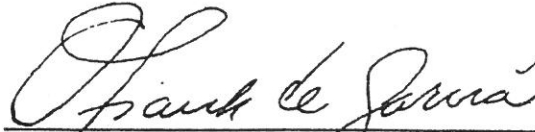

The price will be based on the price per ounce of the next smaller container size of the same product. For example, the price for a six-ounce container of flavored milk in Area 1 would be established as follows:

Price in December 1996 for a four-ounce container of flavored milk	= \$0.1111
	<u>÷ 4 oz.</u>
Price per ounce	= \$0.0278
	<u>x 6 oz.</u>
Price for six-ounce container of flavored milk for December 1996	<u>= \$0.1667</u>

NOTE: Standard rounding must be used at each step of the calculation.

It is the responsibility of a licensee selling a price-controlled packaged product in a new container size to calculate the price each month as other prices change.
