No. 1676
B U L L E T I N November 3, 2026

AMENDMENT TO THE MILK MARKETING LAW PROVIDING FOR TWO-YEAR WEIGHER/SAMPLER AND TESTER CERTIFICATION TERMS

The Milk Marketing Law has been amended to change the weigher/sampler and tester certification periods from one year to two years.

Weigher/sampler and tester certificates issued during this renewal period will be effective January 1, 2027, and will expire December 31, 2028.

Going forward, new and renewed weigher/sampler and tester certificates will expire December 31 of even-numbered years.

If you have renewed and received a weigher/sampler or tester certificate that expires on December 31, 2027, you will receive a replacement reflecting the new expiration date.

We do not plan to increase the renewal or new application fee due to this amendment extending the validity of the certificates to two years.

The amendment does not change any aspect of certifications issued by the Department of Agriculture.

Contact the Board office at 717-787-4194 with any questions.
